EDUCATION

Universidad De Guadalajara

Bachelor in Computer Science

Guadalajara, MX

Jan.. 2024 – Current

Conalep

Technical High School Degree in Software Development

Guadalajara, MX

Aug. 2020 – Jun 2023

EXPERIENCE

Recruiter & AI Chatbot Contributor

June 2020 – Present

LinkinCorp

Guadalajara, MX

- Contributed to the development of an internal AI-powered chatbot by assisting the IT department in training and refining conversational flows using **n8n**, gaining hands-on experience with workflow automation and AI/LLM integration tools.
- Assisted in structuring and testing chatbot response logic to improve accuracy and conversational coherence.
- Managed full-cycle recruitment processes on behalf of client companies, sourcing and screening candidates for production-line and operational roles.

IBM Hackathon Winner

Jun. 2026 – Jul. 2026

IBM Guadalajara

Gudalajara, MX

- Competed in a hackathon centered on IBM's new AI agent, "**Bob**," collaborating in a team to redesign and improve an existing project's UI/UX and development workflow.
- Used Bob's **Plan and Code modes** to completely redesign the project's visual interface, transforming an initial "AI flop" design into a polished, professional UI.
- Implemented **GitHub version control with branching strategies** to streamline team collaboration and improve development workflow efficiency.
- Worked under the mentorship of an **IBM Solutions Architect**, receiving guidance on best practices for AI-assisted development.
- Won 1st place** among competing teams; certified winner of the IBM BobAthon 2026.

HPE Innovation Challenge — Finalist

Mar. 2026 – May 2026

HPE Guadalajara

Guadalajara, MX

- Selected as a finalist among **30 university teams** to design a solution addressing onboarding and training efficiency for HPE's Marketing department.
- Worked over a **two-month period** with a direct mentor from HPE's Marketing department to research pain points and design an improved onboarding platform concept for new team members.
- Focused on **strategic design and business communication** rather than technical implementation — developed and delivered a full pitch presentation entirely in English to a panel of HPE judges.
- Strengthened skills in **stakeholder research, UX strategy, and executive-level presentation/pitching** in a professional English-language setting.

PROJECTS

Portfolio web | *Next.js, TypeScript, Tailwind CSS, Framer Motion, Vercel*

May 2026 – Present

- Engineered a production-ready personal portfolio to showcase software projects, technical expertise, and career progression.
- Built an immersive user experience with advanced animations, responsive design, and reusable component architecture.
- Achieved high performance and accessibility standards through modern optimization techniques.
- Published the project as open source to demonstrate clean code, scalable architecture, and development best practices.
